

From: President, XGDF Association, NY

To: All members

Greetings!

The past eight months saw a very interesting period of our association. A period which forced us to take a closer look at ourselves and taught us some valuable lessons which, if absorbed, can only make us a better and stronger organization.

The period is now over! You have elected me as your President and along with the new Executive; I am committed to working hard to put in place the initiative for growth and development in all areas. And we will do this in cooperation with and consensus from, our membership.

The many comments, opinions and advice that have been expressed prove that our organization is alive and vibrant and touches the lives of many.

As we move forward, I urge you to keep the interest and participation alive. Come out to meetings and events; volunteer to serve on committees.

I welcome your comments, opinions and suggestions and ask that you send them directly to me at the listed address below.

Sincere thanks to the past executive for their hard work over the past two years. Their advice and help in the transition is much appreciated.

I thank you the members, for the privilege of serving as your President once again, and look forward eagerly to serving you for the next two years.

Sincerely yours,

Joseph (Johnny) Glasgow
